

# \$24,950 BEFORE SPEEDING TICKETS.

While we encourage all MINI owners to obey the rules of the road, it's hard to appreciate the true value of a MINI until you get out there. After all, how many other cars at this price come with xenon headlights, six airbags and traction control? Not to mention the wide stance, short overhangs and low center of gravity that give it such incredible go-kart handling. So stop by your MINI RETAILER today, lay claim to the MINI Cooper in your favourite colour and start racking up those points.
