Coverage

We've got you Covered!

We've got you covered with our extensive wireless network.

Quality Commitment

We continually upgrade our network capacity and quality, which means stronger reception, and fewer dropped calls. We currently deliver wireless coverage to 94% of the population of Canada. To view coverage maps [click here](#).

IX Network

In addition to our extensive 1.9 GHz and 800 MHz digital networks, Bell Mobility is proud to introduce the latest in wireless service: the IX Network. This next generation of wireless technology offers unprecedented network capacity and data speed. Now you can enjoy 24/7 Internet access and get the information you need up to five times faster than with other wireless data technology. IX is already available in Victoria, Vancouver, Calgary, Edmonton, Toronto, Ottawa, Montreal and Quebec City.

Stay tuned as the IX Network continues to grow throughout 2003. To learn more about IX and Bell Mobility's wireless networks [click here](#).

Traveling

Bell Mobility makes traveling easy with extensive wireless coverage across Canada, the U.S. and overseas. Whether you're taking a family vacation or hurrying to a business meeting in another city, Bell Mobility provides the products and services to keep you connected at all times.

If it happens to take you across Canada, traveling with your cell phone is simple, since your airtime rates and bundled minutes follow you from province to province.

Going a little further? Through our numerous roaming agreements, Bell Mobility provides you with service in Mexico, Hong Kong, New Zealand, Puerto Rico and 90% of the United States. Just pack your phone and go! To learn more [click here](#).

"Bell Mobility - Always expanding. Constantly improving."
