

LETT'S  
**SUPER 7**

# DESTINATOR

Though diminutive in stature, she has the power to open packs of airline peanuts with a single rip - a vital skill for the ever-traveling SUPER 7 winner. Her special “tingly” senses can locate lost luggage, several continents away - a power she learned in a relationship with a web-slinging boyfriend who shall remain nameless. “We’re still friends” she insists, “even though he took my Steely Dan and Mini Pops albums.”
