**LONG DISTANCE**
Here's the skinny on long distance calls.
If you're visiting Calgary and make a call to
someone in Calgary, you only have to pay your
regular per minute rate. If you make a call to
anywhere outside of Calgary while you're there
– like to your friend Fritz in Windsor - long
distance charges apply on top of your regular
per minute rate. Any calls you receive while
you're in Calgary are also charged long distance
plus regular per minute rates.

**COVERAGE**
Right now, you can take your phone and get
Virgin Mobile service from coast to coast in
most areas within the 10 Canadian provinces.
We're working round the clock to bring on the
U S of A. Check us out online for any additional
information on coverage.

**411**
IT'S VIRGIN MOBILE TO THE RESCUE!
Need a number fast? You've got it... with
Virgin Mobile's automated system that
can fetch you any number listed in North
America. It'll even send you a text so you
can keep the digits for that downtown
club on hand. Dial "411" from your Virgin
Mobile phone and try it out!
